DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on May 16, 2005 has been entered.

Response to Amendment

The response filed May 16, 2005 has been considered.

Claims 1-6, 9, 11-15, 17-20, 22-27 and 32-49 are pending.

An action on the merits follows.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 22 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 22, line 1: --blade-- should be inserted after "retractor".

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 48 and 49 are rejected under 35 U.S.C. 102(b) as being anticipated by O'Neal et al. (U.S. Patent No. 5,512,038).

O'Neal et al. discloses (Fig. 1) a retractor system comprising a drive mechanism having a main body (90/92) and first and second extensions (16) extending from said main body, said first extension being movable relative to said second extension (col. 5, lines 9-11); and first and second retractor blades releasably attached to said first and second extensions

respectively (see bushing "60" and its arrangement with respect to extensions "16" in Figs. 5 and 6).

Each of said first and second retractor blades comprises and elongated body (60) having a first end and a second end, said first end having an opening (62) to receive a respective one of said first and second extensions.

Allowable Subject Matter

Claims 1-6, 9, 11-15, 17-20, 22-27, 32-47 are allowed.
